First of all I’d like to thank ALLAH almighty, the most merciful and compassionate, for his support, help and generosity.

Second I would like to thank my supervisor Prof. Dr. Refaat M. Ali, Professor of Plant Physiology, and Vice Dean for learning and education, Botany Department, Faculty of Science, Fayoum University, for his supervision, continuous caring and guidance discussion. I am very indebted to him for his continuous encouragement, unforgettable help and kind feeling throughout the course of this study.

I would like to express my deep gratitude to my supervisor Prof. Dr. Mahmoud Gabr, Professor of Plant Physiology, Botany Department, Faculty of science, Cairo University, for his supervision, valuable advice, criticism, and continuous encouragement.

Also, I would like to thank my supervisor Dr. Wael M. El-Sayed, Lecture of Phycology, Botany Department, Faculty of Science, Fayoum University, for his supervision, helpful cooperation and continuous encouragement.

Finally, thanks also extend to all my colleagues who helped me during this work.
