Summary
**Introduction**

The ways to price the hotel job is considered one of the most important topics that had been accepted in, the manufacturing field more than that’s of the serving field, as the care had become in creased in that serving field since 1920 especially on, the level of the hotels sector.

And that’s is back to the challenges and, the competitions that hotels sectors face and, this needs to achieve the most high level to know the ways to organize salaries and, what's all about salaries especially in hotels sector.

There is no doubt that the quantities methods that were used in organizing salaries and, what's all about have no pioneering rolls especially in hotels sector.

When the nowadays to organize price ways of hotels job on the hotels sector by using non-quantetive ways that is related to practice, and having species ways.

And in this age the strategy in organizing price ways of hotel jobs ,appear to save work to goon and to achieve goals of the work with out falling any mistakes.
The challenges that his age faces to organize the system of salaries and all that belong to salaries for hotel jobs make all hotels especially the 5 stars hotels that is present in the Cairo area (Cairo city, and Giza city, and 6th October city) in continuous competition to get the best human resources to make work go on and keep the best high level of production.
