A THESIS

**Submitted in Partial Fulfilment of Requirements for Degree of
Philosophy of Doctorate of Science in Horticulture (Pomology)**

Horticulture Department

Faculty of Agriculture

Fayoum University

2020

Acknowledgment

I wish to express my sincere gratitude's to Allah, to whom I am greatly indebted and obliged.

Great Acknowledgements and cordial thanks are due to **Prof. Dr Samir Sief El-Yazal**, Professor of Pomology and previous Dean of Fac. Agric. Fayoum University for his supervision, continuous encouragement, valuable scientific advices, constructive criticism and great support during all steps of this investigation.

Special thanks are due to **Dr. Zeinab Ali Ibrahim** Associate Professor of Pomology in the same Faculty for her supervision and sincere advices

My deep thanks to **Dr. Hamada Ragab Hussien** Lecturer of Pomology in the same Faculty for his supervision, presenting a lot of his valuable time, profitable efforts and experience throughout all the period of this work.

Thanks are also offered to all staff members of the Dept. of Horticulture, Fac. of Agric., Fayoum University.

Also, I would like to thank my **Father, Mather and Sisters** who have given me their unequivocal support throughout, as always, for which my mere expression of thanks likewise does not suffice.
