Abstract:

This paper aims to present an edition of a hieratic funerary papyrus of the Third Intermediate Period; the papyrus of *Nxt-DHwtY* is a part of the Book of the Dead. It contains parts of chapters 180 and 181v, in addition to a rare vignette. This publication seeks to offer the transcription, translation, paleographical remarks and comments on orthography and the writing system used in the text, in addition to comparison of the papyrus with other manuscripts of the same period.
