Aim of the Research:

The research aims to explain the criteria by which it is possible to get out of the rule Sibawayh i.e. (the infrequency) regarding some of the issues by answering the following questions:

-Are the Issues of (infrequency) in the book of Sibawayh images to reverse the original?

-Is Issues (few) in the book Sibawayh traded on the tongues or is it weird?

-Are Meant by (few) abnormality?

-Is Approved a Sibawayh in judgment (b few)? However, whether it?

-Is What is the ruling by Sibawayh him what he Aallah or payoff? Keep track of issues (few) in the book Sibawayh show that among the reasons for the lack of use:

With regard to buildings: some of them are either the subject's name, or the name of science, or village name, and some are parsed, and some are not used to the word now, and some are calling on the descriptions are not used now, some of motley characters, and some of them used so far, some of which However, the on Sibawayh.

The lack of use with respect to the masses cracker please refer to: they may not be a crowd, but the name of the collection, or it may be a language less, or the sufficiency another way for this formula, or that each brings health to collect and break a little, and some are broken down very few few up to some extent anomalies.

As it turns out that the lack of use and difficulty are two things do not always Atrdan, may be a function of the lack of use of the asset shall be frequent use of a function of the image that are not to evolution.
