Search Title: abnormal impact on linguistic structure in light of the thresholds for the book.

Author: d. Gray Hassan Ghanem victory.

Aim of the research:

The research aims to: the possibility of a (application) thresholds on the book, despite what the author of the book and his theory of time despite the different formats of knowledge between them, through:

The threshold of the title, and functions, and the threshold of export, and accompanying text.

Customary headline is (Al Ketab) which proves privacy from other works, right of me to study its doorstep including texts or what it is called: (message), which is the third branch of the branches forums text must be parallel (the sender and the sender it), which is considered the threshold of the doorstep it serves as provided in the age composition of the clear in his letter of clues to what might be called: (model theory).

And the gates of the book announcement what they chest before embarking on a writing n is noticeable that Sibawayh not comply in form and one in the formation of doors addresses, and perhaps more shapes frequent is the use of the connected name (what), and the rest of titles either a single ad without describing one of its components, or either vehicle description or kindness or reasoning, and this confirms the special nature of this author's what Sag researcher passport his study in the light of the events witnessed flag other than as science.

And lightness from frequent use, and security of the confusion of the things that was interpreted by abnormal, one of the principles adopted by the Arab imams in the interpretation unless expelled by, and the purpose of the interpretation of abnormal is to maintain the strength of the rules

and durability interpretation of this text and its response to the Avenue, where he was to dropped by the abnormal arguments and evidence on assets, opinions and ills, as they have some of these Gay Astanson what drove him and what did Atrdoh.
