

**(Research Abstract)**

**A Comparative Study of Educational Accountability System  
in Australia, England, Newzeland, and Possibility of  
benefiting from it in Egypt**

**The study deals with an important topic. It aims at knowing the  
aims of accountability inspection processes, and the recent trends in  
educational accountability.**

**It also treats with the current situation of accountability in Egypt,  
especially in the secondary education sector.**

**It ends with the suggested proposal for developing educational  
accountability capable of creativity management in their schools.**

**The study also suggests some recommendation for program  
design, management and assessment**
