**Research abstract:**

**Research title:** A Suggested Program Based on Cyber Psychology Issues to Develop Psychology Section Student Teachers' Awareness of Contemporary Technology Ethics and Their Psychological Well Being

- **Researcher's name:** Nagwa Ibrahim Hassan Ahmed
- **Advisors Board:** Prof. Dr. Amal Gomaa Abdel Fattah,  
Prof. Dr. Abdullah Ibrahim Youssef  
Dr. Fatma Kamal Ayoub

- **Academic year:** 2023
- **Degree:** M.A. degree in Education.
- **Specialization:** Curricula and methods of teaching psychology.
- **Institution:** Department of Curricula and Teaching Methods - Faculty of Education - Fayoum University.
- **Research language:** Arabic.
- **Research problem:**

The problem of the current research was represented in the existence of a weakness in the awareness of the ethics of contemporary technology, as well as a decrease in the level of psychological well-being among student teachers at the Psychology section, which the current research aimed to develop and improve. Therefore, the researcher proposed a program in cyber psychology issues to develop awareness of the ethics of contemporary technology and the psychological well-being of student teachers at the Psychology section. , thus achieving the main objective of the research.

**key words:**

(issues of cyber psychology - awareness of the ethics of contemporary technology - psychological well-being)
