A Suggested Proposal to Activate University Administration Role to Achieve Intellectual Security for Students at Fayoum University

Abstract

In the light of the increase of the negative effects of globalization and the emergence of deviant intellectual currents which led to widespread manifestations of violence, extremism and terrorism, the responsibility of university administration to achieve intellectual security for students is no longer on the margins of the functional duties and specialties, but it has become one of the most important security fortifications. Consequently, the research problem can be represented in the following main question: How the role of the university administration can be activated to achieve intellectual security for students at Fayoum University? To answer this question, the current research aims to: 1- Identifying itntellecual principles and intellectual security theory,2- specify university administration role in achieving intellectual security for students,3-study the reality of the university administration role in achieving intellectual security for students at Fayoum University,4- develop a suggested proposal to activate the university administration role in achieving intellectual security for students at Fayoum University.

The research used the analytical descriptive approach. Through the study, a questionnaire was prepared consisting (79) phrases DISTRIBUTED ON three axes: The reality of the role of Fayoum University administration in achieving the intellectual security of the university students, and obstacles IN activate the role of Fayoum University administration in achieving the intellectual security of the university students, Fayoum University administration role in achieving the intellectual security for the students of the university. The questionnaire was applied to a randomly selected sample of (52) faculty members of teaching stuff of Fayoum University of the study population.

The study yielded several results the most important of which is the poor role of the Fayoum University administration in achieving the students' intellectual security in the fields of (education, scientific

research, community service) The sample of the study approved on average with the Fayoum University administration to do that role while they agreed to a larg extent on the existence of some obstacles that ban this role to be achieved , and agree to a large extent on the proposals to activate the role of the administration of Fayoum University in achieving the intellectual security for the university students, In the light of the research results, a suggested proposal has been introduced through which the university administration role in achieving intellectual security for students at Fayoum University can be activated.
