Second: Aims of the study:

The current study aims to achieving a group of basic aims which acts in the following:

1-standing on the Effectiveness of Community Development Associations Programs in Improving quality of Live of Rural poor Women.

From this main aim there is sub aims acts in the following:-

- a- standing on the Effectiveness of Community Development Associations Programs in Improving quality of Live of Rural poor Women, economically
- b- Standing on the Effectiveness of Community Development Associations Programs in improving quality of Live of Rural poor Women, educationally.
- c- Standing on the Effectiveness of Community Development Associations Programs in improving quality of Live of Rural poor Women, helthically.
- d- Standing on the Effectiveness of Community Development Associations Programs in Improving quality of Live of Rural poor Women, socially.

2-standing on the Obstacles that reduce Improving quality of Live of Rural poor Women.

3- Reaching to Suggestion View to increasing. Community Development Associations Programs in improving quality of Live of Rural poor Women

Third: Questions of the study

The current study try to answer on a group of basic Questions which acts in the following:

1-what is the Effectiveness of Community Development Associations Programs in Improving quality of Live of Rural poor Women.

From this main aim there is sub aims acts in the following:-

e- what is the Effectiveness of Community Development Associations Programs in Improving quality of Live of Rural poor Women, economically

f- what is the Effectiveness of Community Development Associations Programs in improving quality of Live of Rural poor Women, educationally.

g- what is the Effectiveness of Community Development Associations Programs in improving quality of Live of Rural poor Women, helthically.

h- what is the Effectiveness of Community Development Associations Programs in Improving quality of Live of Rural poor Women, socially.

2- what is the Obstacles that reduce Improving quality of Live of Rural poor Women.

3- what is Suggestion View to increasing. Community Development Associations Programs in improving quality of Live of Rural poor Women.

forth: Results of the study

the study revealed about a group of Results as follow:

1- Failing of ability of Community Development Associations Programs improving subjective side in quality of Live of Rural poor Women, economically.

2- ability of Community Development Associations Programs improving objective side in quality of Live of Rural poor Women, economically.

3- ability of Community Development Associations Programs improving objective side in quality of Live of Rural poor Women, educationally.

4- Failing of ability of Community Development Associations Programs improving objective side in quality of Live of Rural poor Women, educationally.

5- ability of Community Development Associations Programs improving objective side in quality of Live of Rural poor Women, helthically.

- 6- Failing of ability of Community Development Associations Programs improving objective side in quality of Live of Rural poor Women, helthically.
- 7- ability of Community Development Associations Programs improving subjective side in quality of Live of Rural poor Women, socially.
- 8-the study revealed the Obstacles that reduce Improving quality of Live of Rural poor Women..
- 9- The study Suggestion View to increasing. Community Development Associations Programs in improving quality of Live of Rural poor Women
