concept and the process require further understanding. One of the key results was that most of the investigated hotels implemented some of the basic principles and components of TM system but the actual practice has not yet been demonstrated as a complete and integrated approach. Most of the managers were aware of the benefit of talent management. This research, therefore, contributes to provide a deeper knowledge and understanding on how human talents are being managed in an important sector of the hospitality industry. Keywords: Talent management, Talent attraction, Talent	esearch aim, an online questionnaire was used as a collection. 212 general managers and human resource the investigated hotels were targeted to identify the opted to attract, select, develop, and retain talent the research revealed that the practices of talent are still at an early stage of development, and the ne process require further understanding. One of the as that most of the investigated hotels implemented easic principles and components of TM system but approach. Most of the managers were aware of the nt management.
