<p>This research aims to shed light on the importance of the role of occupational guidance and counseling in activating hotel school students joining to tourism market. The questionnaire was distributed to them, and the questionnaires were distributed to students who graduated from school and received occupational guidance and counseling services in hotel schools, and the data was analyzed using a set of statistical measures. The study concluded that there is a significant relationship between the application of vocational guidance and counseling in hotel schools, which helps to facilitate the transfer of its students to the tourism labor market, in addition to the fact that there is a significant relationship between the application of occupational guidance and counseling that enables students of those schools to make professional decisions related to their future career. .</p> <p>Key words: Guidance - Occupational Guidance - Technical Education Hotel Schools - Skills - Fayoum Governorate.</p>	<p>باللغة الملخص الإنجليزية</p>
