**IDB PRIZES FOR
SCIENCE AND TECHNOLOGY
10th Edition**

(1433H – 2012G)

INTRODUCTION

In recognition of the crucial role of Science and Technology (S&T) towards social and economic development, the IDB has, over the years, diversified and increased its assistance to its member countries in this area.

While the IDB continued to direct its efforts and financing to capacity-building, procuring equipment and establishing infrastructure of S&T, it has realized the necessity to develop a leading scientific elite among S&T institutions in member countries through the pursuit of excellence.

PURPOSE AND OBJECTIVES

The IDB Prizes for S&T aim at encouraging merit institutions and promoting competition among S&T institutions. The Prizes also reflect the commitment of the IDB to implementing forward-looking policies and integrating advanced S&T applications in the development agenda of its member countries.

Specific objectives of the Prizes are:

- to promote a sound and fruitful competition among S&T education and research institutions in its member countries for achieving excellence;
- to encourage and support the successful institutions in this competition;
- to raise the awareness of decision-makers and intellectuals about present and potential contribution of S&T to human development; and
- to highlight IDB's policies and contributions towards S&T.

NATURE OF THE PRIZES

The IDB Prizes for S&T consist of three (3) prizes awarded on the occasion of the Annual Meeting of the IDB Board of Governors. Each prize will consist of a cash award of one hundred thousand (100,000) US dollars, a trophy and a certificate mentioning the name of the winner and its accomplishments.

PRIZE CATEGORIES

The Prizes are awarded only to institutions (not to individuals) in IDB member countries in the following categories:

Category -1: Outstanding scientific or technological contribution to the socio-economic development of a member country.

Category -2: Outstanding contribution to any of the following scientific disciplines: Engineering; Agriculture; Medicine; Biotechnology; Information Technology; Optronics; Material Sciences; Pharmaceutical; Industrial Microelectronics; Nanotechnology and alternative Energy Sources.

Category -3: Noted scientific research institutions in IDB least developed member countries (LDMCs).

APPLYING FOR THE PRIZES

Applications are invited from national, regional and international academic/research/development institutions of member countries, private or public.

An electronic application form is available on the IDB website www.isdb.org. It shall be carefully completed by the institution following the guidelines posted on this website, and then shall be sent to the e-mail: STPrize1433@isdb.org.

If access to the electronic form is not possible, the template form attached to this booklet may be used. All the information shall be typed in font size 12. Hand filled applications forms will not be accepted.

The completed forms along with any attachments should be received by the IDB Science & Technology and Technical Cooperation Division or at one of the IDB Regional Offices, no later than 5 Safar 1433H corresponding to 30 December 2011G.

ANNOUNCING THE PRIZE WINNERS

The announcement of winning institutions will be during the 37th Board of IDB Governors Meeting scheduled during the period 3-4 April 2012G (11-12 Jumada-I 1433H) in Khartoum, Republic of Sudan.
